## Presidents Message ...

Joe Amandoli  
President 2007-2008

What a moving and inspiring meeting on Friday night! We should have more evening meetings. Do you agree? Our five Charter Members Ron Hertel, Pete Gallagher, John Masterson, Andy Corliss and Bill Hammaker were fantastic! Can you believe that these men started what is today one of the best Rotary Clubs in our District 5240? I can. I had the privilege of driving Mr. Hammaker home on Friday evening. He lives with his 68 year old daughter who takes great care of him and

makes sure he gets home each evening. This man is a wealth of knowledge and an all around great warm friendly guy.

Thank you to all of you and the Charter members for making Friday evening a special one.

I have a challenge for you! Call a Rotarian from your little blue book that you have not seen at the meetings for a while. Call one of our Rotarians who are healing like LeRoy or Tom Hashbarger or anyone who you feel may need a call just to say hi! What a powerful tool we have it is called Love and friendship! I don't know any of our members who would be upset if you called them to say hi and find out what's been going on .

Thanks for your dedication and support of me and our Fantastic Rotary Club of Ventura East!

Joe

Our program today discussed living with a brain injury. We were joined by Joan Moore, Director of the Brain Injury Center in Ventura, and by Linda Wells, who is living with a brain injury.

The Brain Injury Center is a non-profit organization whose mission is to encourage a meaningful, productive and self-actualized life after brain injury. They help brain injury survivors and their families do this by providing information, referrals and a compassionate support system. The Brain Injury Center is entirely self funded and receives no funds from governmental agencies to support their cause. Most needed is money to fund programs. The Brain Injury Center is looking for a way to provide services to those with brain injuries such as art programs, including learning to garden and photograph.

Linda Wells was injured 16- years ago in a golf cart accident on Catalina. The driver of the golf cart swerved resulting in the ejection of Linda from the cart, when she sustained an intracranial bleed the size of a lemon. Rehabilitation took her from St. John's Rehabilitation Center to Solutions in Santa Barbara

**Husam Hishmeh** gave our inspirational message.

Our speakers, Linda Wells and Joan Moore, spoke about the mission of the Brain Injury Support Group.

where she had to learn all of her basic skills over again including walking, talking, and even tying her shoes. She recalled one of her speech therapists requesting a cup of coffee in her home and Linda had no idea what she was requesting.

Linda says she has no recollection of anything before the accident, the accident itself, and has very little short term memory now. She cannot drive, read, or listen to music. Her friends have abandoned her and much of the "normies" think she is retarded. She has a difficult time communicating and is visually impaired as well. The doctors told her family that she would be a vegetable the rest of her life. She credits her family, particularly her husband, for giving her strength to fight to become as functional as she is today and the Brain Injury Center for providing her a "fit in spot" once a week, where she meets others with brain injuries and discusses their progress and problems.

Thank you Linda, for explaining your injury and educating us "normies" on living with a brain injury. If you would like to help the Brain Injury Center further you may contact them at (805) 650-5993 x. 204 or at [www.braininjurycenter.org](http://www.braininjurycenter.org).

Best Regards,  
Nikki Sloan
